#### **Old Business:**

None.

#### **New Business:**

- Ron reported that AREDN nodes are being upgraded and or replaced in the 911 building
- SET event: Ray reported that this year's SET (simulated emergency test) was a great success and the local EMA management team was very pleased with the effort put forth by our members. 25 hams participated with 6 new hams being involved.
- Web Site changes: Emery Wooten made that point that our current website is being hosted for free by Century Link, but that this arrangement does not offer his any support. He suggested that we move our website to another hosting service and pay a small fee for support. This would include a new domain name which Emery would maintain and renew when necessary. After a brief discussion, a motion was made to allow Emery to make this happen. The motion passed unanimously.

With nothing for the good of the club, the meeting was adjourned.
